- 
- 
- Features**
  - 1. The application of an Ethernet port makes the cutting plotters fast and convenient
  - 2. High performance is guaranteed with the integrated circuit plate.
  - 3. The linear guide of the cutting plotters ensures high speed and few errors.
  - 4. The cutting plotters feature imported digital servo drivers and their SD cards offer mass storage.
  - 5. The powerful compatible function enables connection with any kind of CAD software.
  - 6. The cutting plotters have an LCD touch screen in both English and Chinese.
  - 7. The cutting plotters feature intellective order printing.
- Application**
  - The EDO-1863A and EDO-1873A cutting plotters are used in image symbolization and the clothing, suitcase, trimming and padding industries.
- Technical Specifications**
  -

Model No.	EDO-1863A	EDO-1873A	EDO-1763A	EDO-1653A
Cutting Media	Kinds of cardboard, kraft paper, plastic board, fibrous cardboard, rubber sheet and marking film etc.			
Pen & Blade Types	Gel-ink pen, oil pen, ball pen / special tungsten carbide blade			
Programmable Resolution	0.025 / 0.01 / 0.1 available			
Interface	Serial Port and Ethernet Port			
Command Mode	HP-GL compatible format			
Max. Speed	Up to 1200mm/s			
Max. Cutting Depth	2mm			
Media Fixture Method	Vacuum suction			
Repeat Precision	≤0.05mm			
Buffer Memory	1G			
Operational Panel	Touch screen			
Transmission System	Digital servo driver synchronous belt straight rail			
Power Supply	AC 220V ±10%, 50HZ / 3 KW			
Fuse	6A,30A			
Working Environment	10 to 35 deg.C			
Effective Cutting Area	1500mm*900mm	1500mm*1200mm	1200mm*900mm	900mm*600mm

- JINGWEI is cutting plotter manufacturer, based in China. We offer cutting plotters, sample makers and cutting machines. We provide high quality products at competitive prices. Our company can supply the full chain of manufacturing plastic cutters and flatbed cutting plotters right here in China. Our lower manufacturing cost saves your purchasing cost. More details of each product are shown on the description page.
