Flat Type Fusing Press HP-124A

Specification

☐Motor driven fully-automatic flat type press.
☐Compact and requires no extra equipment such as an air compressor, and can be installed very easily.
☐Uses a special heater and the aluminium heater plates give excellent thermal efficiency and uniform temperature distribution.
☐Anti-static type Teflon sheet is used for the upper plate, making it easy to clean.

Flat Type Fusing Press HP-124A

Description	Flat Type fusing Press
Model	HP-124A
Voltage	3P200V・3P380V
Rated Output	Heater : 3,650W Motor : 200W
Rated Volatge	3P200V : 12.5A
Temperature (MAX)	?200℃
Presser (MAX)	210g/cm2
Plate Dimention	1,200×400mm
Size	?950(D)×1,226(W)×700(H)mm
Weight	180kg

Flat Type Fusing Press HP-124A

Standard	Emergency Switch
Consumption	Teflon Sheet Fabric over Felt Mat
